ABSTRACT

This checklist brings together the bulk of the materials relating to libraries and librarianship in Papua New Guinea, including several that have not been identified previously. The 121 citations for papers, reports, and periodical articles published between 1961 and 1977 are listed in chronological order. Excluded are newspaper reports, official government gazette entries, and estimates and budget documents. (Author/MBR)

INTRODUCTION:

This checklist brings together for the first time the bulk of the material relating to libraries and librarianship in Papua New Guinea, including a number of items that have not been listed or identified previously.

There are entries for 121 papers, reports and journal articles that have been published between 1961 and July 1977. These items have been found progressively over a period of some two and a half years, and while the list is fairly comprehensive there are sure to be a few more fugitive items that have not yet come to light. It is hoped that publication of this checklist may help in identifying other items.

Specifically excluded from this checklist are newspaper reports, official government gazette entries, and estimates and budget documents. These may well be able to be included in a later checklist.

I trust that the publication of this checklist will assist in providing a greater knowledge and a better understanding of the practice of librarianship in Papua New Guinea.
